ENTERED AS SECOND-CLASS MATTER.

THE DAILY EPITAPH IS

the only Daily Newspaper published in Cochise county that takes a regular telegraphic press report and does not use "heated plates."

What is the matter with the Times? How do they get their news? For nearly a week.

It is thought that the prisoners at Yuma are almost entirely devoid of human life.

It is now known that Wolfley has telegraphed to Washington asking that Judge Bates be removed. Has the commission been given?

A Wolfley says that Wolfley's work is a success. Mr. Barker, who is well known all over southern Arizona, says it wasn't. It is a question of success between Mr. Barker and Mr. Wolfley, and from what we know of the two gentlemen, we incline to the side of Mr. Barker.

While not being at all in line with the Democratic holdovers, and being certain that they would have stood better had they been in the line, and their party had they generally stepped down and out when Governor Wolfley was inaugurated, yet it cannot be denied that the move to have all the laws passed since 1881 declared void was inaugurated by the Wolfley-Churchill combination, and was done solely for the purpose of defeating the convention line, because they rightly considered that if Arizona should be admitted as a state they would never stand a chance of getting office again. They have done more to damage the prospects of the Republican party in Arizona during the short time they have been in office than the Democrats could have done in a lifetime.

The French press has taken alarm at the international congress to be held in Washington next month. They are beginning to appreciate the full significance of this masterly move in diplomacy by Secretary Blaine. It is becoming evident to them that this congress of the nations of the new world is destined to have a far reaching influence on commerce, and that if the congress should prove harmonious it will be instrumental in diverting to the United States a large amount of the vast volume of trade that now goes to Europe from our southern neighbors. Hence their alarm. The French press is now engaged in an endeavor to make Mexico believe that it is merely a plan, concocted by the United States to overthrow its government and annex their country, and in this they are aided by the conservative press of Mexico, which is opposed to anything that is in any way connected with the United States. That they will fail in this endeavor is a foregone conclusion, for the intelligent class of Mexicans, from President Diaz down, know that we have no desire to make the attempt to take any portion of their country, either by war or the arts of diplomacy.

We feel very sorry for Stiles that his chickens are coming home to roost. Calling the residents of Arizona a set of cowboys, with the inference that a respectable man cannot live in Arizona, will not help Mr. Stiles' case. He talks about coming back to this Territory to fight the matter, but it is safe to say that he will not.

Swept by the Tide of Popularity.

To the utmost pinnacle of success, Hostetter's Stomach Bitters stands a shining proof of what genuine merit, backed by the living force of proven facts, can attain. The North and South American continents, Europe, Australia, the West Indies, Guatemala and Mexico have all contributed wide patronage and testimony of the most favorable kind—but unsolicited—to swell the reputation of this sterling remedy. Among the maladies for which the most convincing public and professional testimony proves that it is a benign curative, are chills and fever, bilious remittent, dumb ague and ague cake, dyspepsia, liver complaint, nervousness, debility, kidney and bladder complaints. It mitigates the infirmities of age, hastens convalescence, has a tendency to prevent ill consequences from exposure and exhaustion. Persons of sedentary habits and laborious occupations will find it an ever useful tonic.

Cholera in Michigan.

Dr. F. D. Larke, of Rogers City, Michigan, says the epidemic of last year in Presque Isle County, in which so many persons lost their lives, was choleric dysentery instead of cholera as first reported. He used Chamberlain's Colic, Cholera and Diarrhoea Remedy and says it succeeded, where all other remedies failed. Not a single case was lost in which it was used. This Remedy is the most reliable and most successful medicine known for colic, cholera morbus, dysentery, diarrhoea and bloody flux. 25 and 50 cents bottles for sale by H. J. Peto.
